Meet Berlin artist, Nicoleta Albei-

Wigger

Nicoleta Albei-Wigger paints life and people, mainly using acrylics. Channeling her emotional world, Nicoleta explores a step-by-step process to create explosions of radiant and dark tones, which make up the magnetism of her art. The artist has been living in Berlin for over 25 years, and since 2019 has collaborated with 4ARTTechnologies, creating her compilations in 4ART Exhibition App.

Her style and inspiration

The canvas emerges directly from Nicoleta's emotional world and thus is assembled of exploding colors and subtle sensuality. While studying the acrylic paintings, motifs appear and become gradually recognizable: a face or figure. Viewers find elements hidden in the color universe, made visible through combinations. Everything Nicoleta paints is associated with the joy of life. Her art is formed by the feeling of worlds, which take shape in her pictures.

Decorate your home or office with Nicoleta's individualized art

Art collectors and art lovers express their individual style through decoration in their homes or offices. A statement of their personal taste can be expressed through the environments they create with light, furniture and, of course, art on the walls.

Nicoleta gives private or business premises full exclusivity, which is unique in the truest sense! Her purposefully selected colors, dimensions and shapes create a whole new spatial effect according to the client's wishes. Her aim is to devise a perfectly harmonious atmosphere in combination with the space's interior design. Nicoleta advises art lovers to go for a well-thought-out color concept, and she can perfect their personal, individual style with their desired image.
